◆ Machine Overview

This is a **2008 Sodick TR20EH2 (20T)** all-electric injection molding machine, manufactured in Japan and equipped with a HARMO take-out robot.

Compact 20-ton class machine suitable for:

- Small precision components
- Electronic parts
- Medical / light industrial molding
- Limited factory space operations

All-electric system ensures:

- Stable molding performance
- Lower energy consumption
- Clean & quiet operation
- Reduced maintenance compared to hydraulic systems

◆ Machine Condition

- Well-maintained
- Currently located in Japan
- Under power inspection available
- No mechanical issues reported
- Video available (January 2026)

Alarm sound in video is due to transportation preparation settings only.

Location

Japan

◆ Competitive Advantage for Buyers

This machine offers:

- Reliable Japanese manufacturing
- Robot included (added value)
- Entry-level investment for molding business
- CIF pricing simplifies overseas purchase
- Suitable for emerging markets
